How to Dispose of Bulls

We are quickly approaching the middle of the year, so assessments should be submitted by now. However, as we all know, assessments only apply to the females in your herd. I am here to show you how to remove culled males from your account.

1. First, you will need to click “View” under “My Account” to get to your profile.

2. Once here, “Herd” should be highlighted in green. Next, click “All” underneath “Herd”. Here you will see all of your animals- males and females, Shorthorn Plus and Purebred.

3. Each animal has a row of click-able buttons. To dispose of one, click the “Dispose” button. Once you do so, it should read “Queued”.

4. The final step to disposing of animals is to look back to the left-hand menu. Click “Herd Mgmt” and then “Update Status”. This page will contain any animals that you have already chosen to dispose of.

5. You will mark the appropriate disposal code on each one, then click “Make Updates”.
